

Munich Center for Neurosciences – Brain & Mind

Monday Lectures – Winter Term 2014/15

Monday, October 06, 2014, 18:00

Klinikum Großhadern, Lecture Hall 5, Marchioninstr. 15, 81377 Munich

Prof. Dr. David Kleinfeld, in collaboration with
(University of California, USA)

“Cortical blood flow: From vascular networks to microstrokes and vasomotion”

Monday, November 03, 2014, 18:15

LMU Biocenter, B01.019, Großhaderner Str. 2, 82152 Martinsried

Prof. Dr. Luis Puelles
(University of Murcia, Spain)

“Fundaments and implications of the prosomeric model”

Monday, November 24, 2014, 16:00

MKE Library, M210, LMU Main Building, Geschwister-Scholl-Platz 1, 80539 Munich

Prof. Dr. Tobias Bonhoeffer
(Max Planck Institute of Neurobiology, Martinsried)

“How experience changes synapses in the mammalian brain” (tbc)

Monday, December 01, 2014, 18:15

LMU Biocenter, B01.019, Großhaderner Str. 2, 82152 Martinsried

Prof. Dr. Anton Sirota, in collaboration with
(Ludwig-Maximilians-Universität, Germany)

“Interaction between animal behavior and internal brain dynamics: towards understanding the mechanisms of learning”

Monday, January 12, 2015, 18:15

LMU Biocenter, B01.019, Großhaderner Str. 2, 82152 Martinsried

Prof. Dr. Sten Grillner
(Karolinska Nobel Institute, Sweden)

“Evolutionary conserved forebrain mechanisms for selection of action”

Monday, February 02, 2015, 18:15

LMU Biocenter, B01.019, Großhaderner Str. 2, 82152 Martinsried

Prof. Dr. Heiko Luhmann
(Universität Mainz, Germany)

“What the rat’s whisker tells the rat’s brain: Processing of sensory information in the rat barrel cortex *in vivo*”
